

# Assignment 2

EXSM 3922: Visual Design for UI

Instructor: Davis Levine  
[dlevine1@ualberta.ca](mailto:dlevine1@ualberta.ca)

## Assignment 2: Composition

### METHOD

In this project you will be creating 5 different compositions. You will use the composition principles (unity, balance, hierarchy, contrast, scale/dominance) from this module to create each layout.

Create 5 Adobe XD artboards with the dimensions of 1280px by 800px each. **You will use a separate artboard for each composition.**

Create 5 compositions that clearly demonstrate the principles of:

- **Unity**
- **Balance**
- **Hierarchy**
- **Contrast**
- **Scale/Dominance**

Use 5 to 7 basic shapes for each artboard using the rectangle, ellipse, and line tool. Each composition must use 5 to 7 shapes. Use the colour of #666666 for your shapes and lines. Remove any border on the rectangle and ellipse.

*Do not put a label of the composition principle on the artboard. Use the filename to identify which composition you are communicating.*

### DELIVERABLES

Export the 1280 x 800 px artboards as separate PDF files and upload it to the submission folder on eClass. Use the following file naming convention:

**EXSM3922\_A2\_PrincipleName\_LastnameFirstname.pdf**
