

Module 3

Assignment 3 Tips: Photographing Still Life Images at Home

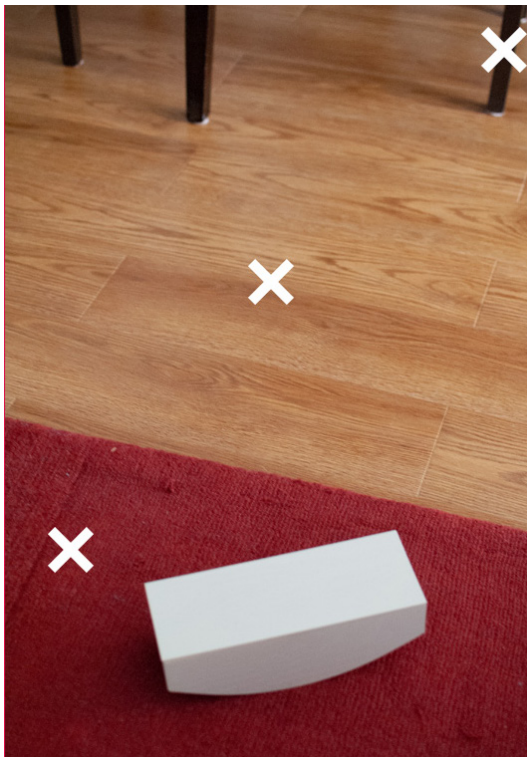

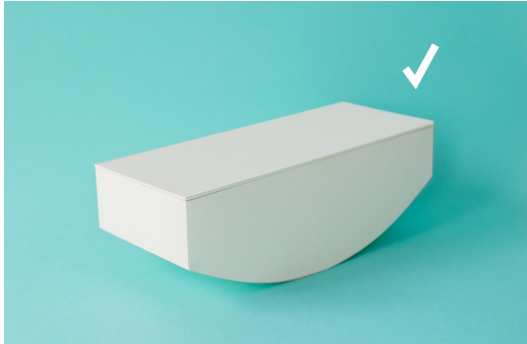

Photography Set-up

Set up a curved (not folded) piece of paper next to a window on a sunny day. If you have one, use a tripod to hold your camera or phone in place while you take your photos.

Photography Set-up

Avoid showing distracting textures, objects, and surfaces in the backgrounds of your images.

Composition

source: Alex Wallbaum

If you are not using a curved piece of paper, think about how you can use the surface your object is sitting on as part of the composition.

Light

source: student work

Be playful with light in your images. Expressive light can add interest to your visual narrative.
